

**JOHN M. MAYER**  
**CURRICULUM VITAE**

**Contact:**

Phone: 858-583-4494  
Email: johnmayer@usssf.com

**Education**

B.S.	Biology	S.U.N.Y. College at Brockport, NY	1987
B.S.	Human Biology	National University of Health Sciences, IL	1989
D.C.	Chiropractic	National University of Health Sciences, IL	1991
M.S.	Exercise Science/Physical Education	Syracuse University, NY	1998
Ph.D.	Exercise Science/Science Education	Syracuse University, NY	2000

**Licenses (active)**

Doctor of Chiropractic:  
State of California (license # 26637), State of New York (license # 006788)

**Positions (Current)**

*The Vert Mooney Research Foundation (dba U.S. Spine & Sport Foundation), San Diego, CA*

2001-2012 Director of Research

2016-present Member, Board of Directors

2016-present Director of Research & Innovation

2018-present Scientific Officer

Services: Conduct research and related knowledge translation efforts to improve quality of life and physical function.

*Northeast College of Health Sciences, Seneca Falls, NY*

2008-present Adjunct Associate Professor (volunteer)

*Mayer Clinical and Consulting Services, San Diego, CA*

Founder and Owner

1991-present Licensed Clinician - Doctor of Chiropractic

2000-2018 Consultant

2019-present *Mayer Health Consulting LLC*

Services: Clinical and research consulting services for neuromusculoskeletal conditions and health promotion including procedures and guidelines development, clinical trial design, expert witness, independent examination, education, and instruction.

**Positions (Past)**

- 1989-1990     Physical Therapy Aide  
                  Good Samaritan Hospital, Downers Grove, IL
- 1997-1999     Research/Teaching Assistant  
                  Department of Exercise Science, School of Education, Syracuse University, NY
- 1998-1999     Teaching Associate  
                  Future Professoriate Program, Graduate School, Syracuse University, NY
- 1998-1999     Adjunct Instructor  
                  Department of Exercise Science, School of Education, Syracuse University, NY
- 2001-2007     Adjunct Research Associate/Professor  
                  Department of Biology, College of Sciences, San Diego State University, CA
- 2002-2006     Adjunct Instructor  
                  College of Extended Studies, San Diego State University, CA
- 2018-2020     Chief Scientific Officer, Chief Financial Officer  
                  Excellcior LLC, Tampa, FL

*Morsani College of Medicine, University of South Florida, Tampa, FL*

October 2007 - June 2018

School of Physical Therapy & Rehabilitation Sciences:

- 2007-2018     Lincoln College Endowed Chair in Biomechanical & Chiropractic Research  
2007-2015     Associate Professor (tenured August 2010)  
2011-2018     Coordinator of Research  
2014-2018     Coordinator, PhD program in Rehabilitation Sciences  
2015-2018     Professor

Center for Neuromusculoskeletal Research:

- 2012-2014     Co-Director  
2015-2016     Director  
2017-2018     Executive Director

**Certifications (current)**

Cervical & Lumbar Exercise Testing & Rehabilitation, University of Florida / MedX Corp  
Basic Life Support for Healthcare Providers (CPR and AED), American Heart Association

**Professional Memberships (active)**

American College of Sports Medicine  
Florida Chiropractic Association (honorary member)

## **Honors and Awards**

- 2001            The Doctoral Prize, School of Education, Graduate School, Syracuse University  
Awarded for exemplifying excellence in scholarship and research at the graduate level related to doctoral dissertation: “Lumbar musculature and exercise.”
- 2012            Safety Award, Tampa Fire Rescue, FL  
Awarded by Mayor Bob Buckhorn and Fire Chief Tom Forward for support of Tampa Fire Rescue related to the research project:  
“Low back injury prevention in firefighters”
- 2014            Researcher of the Year Award  
American Chiropractic Association
- 2015            Faculty Outstanding Research Achievement Award  
University of South Florida
- 2016            Fellow  
American College of Sports Medicine
- 2018            Impact Award  
Exceptional service as Lincoln College Endowed Research Chair 2007-2018  
Florida Chiropractic Association

## **TEACHING**

### **Courses Taught**

#### *University of Montana*

##### Graduate -

PHT 7399: Capstone Project - Transitional DPT Program (via Rehab Essentials); Project Advisor (2013-2025)

#### *University of South Florida*

##### Graduate -

BCC 7184: Primary Care Clerkship - Low Back Pain; Lecturer (2009-2012)

BMS 5005: Professions of Health; State of the Art - Presenter, Faculty Consultant, and Facilitator (2013-2017)

PHT 6609: Critical Assessment of the Literature and Evidence-Based Practice; Instructor (2013)

PHT 7151: Health Promotion and Wellness; Course Co-Director, Instructor (2008-2012, 2017),  
Course Director, Instructor (2013-2016)

PHT 7540B: Patient/Client Management Seminar 2; Course Co-Director and Instructor (2015-2018)

PHT 7618: Critical Inquiry 3; Instructor (2008-2011); Course Director (2011)

PHT 7959: Peer to Peer Mentoring (Capstone Seminar) in Physical; Instructor (2013-2017);  
Research Track Leader (2014-2017)

SPA 6906: Independent Study; Mentor/Instructor (2015)

Other instructional activities at University of South Florida -  
Doctor of Physical Therapy preview activity - Evaluation of Campus and Community Resources  
for Promotion of Health, Wellness, and Physical Fitness: Instructor (2010-2012, 2014-2017)

*San Diego State University*

Professional Certificate Programs -

9401 CF: Exercise Science 1 - Kinesiology (on-campus); Instructor (2002-2003)

9404 CF: Designing Exercise Prescriptions (on-campus); Instructor (2002-2003)

99412 CF: Exercise Science 1 - Kinesiology (on-line); Instructor (2003-2006)

99413 CF: Exercise Science 2 - Exercise Physiology (on-line); Instructor (2003-2006)

99424 CF: Designing Exercise Prescriptions (on-line); Instructor (2003-2006)

*Syracuse University*

Undergraduate -

PPE 486: Prevention and Care of Athletic Injuries; Instructor (1999)

Graduate -

PPE 500: Advanced Athletic Training; Instructor (1998-1999)

**Guest Lecturer**

Adult Health Concerns (Onondaga Community College)

Advanced Biomechanics Lab and Kinesiotherapy Lab (San Diego State University)

Analysis of Human Motion (Syracuse University)

Clinical Problem Solving 2 - lecture - spinal muscular strength testing (PHT 7625, spring 2010,  
University of South Florida)

Community Health Studies (Onondaga Community College)

Evidence-Based Practice III (National University of Health Sciences)

Exercise Leadership (Syracuse University)

Occupational Medicine Residency Program (fall 2017, University of South Florida)

Physiology of Exercise (Syracuse University)

Physiological Therapeutics (Southern California University of Health Sciences)

Research Problems in Exercise and Sport Science (Syracuse University)

Stress Management (Syracuse University)

## **Graduate Thesis and Dissertation Committees**

Committee Member: Jun San Juan

Thesis - Master of Arts (completed 2003)

Effect of pelvic stabilization on lumbar muscle activity during dynamic exercise

Department of Exercise and Nutritional Sciences, San Diego State University, CA

Research Mentor: Nissa Casuga

Thesis - Doctor of Physical Therapy (completed 2003)

Trunk and lower extremity muscle activity in multiple planes of motion using surface electromyography

Department of Physical Therapy, Loma Linda University, CA

Research Mentor: Bitu Shahidi

Thesis - Doctor of Physical Therapy (completed 2003)

Trunk and lower extremity muscle activity in multiple planes of motion using surface electromyography

Department of Physical Therapy, Loma Linda University, CA

Committee Member: Christine Ahlff

Thesis - Master of Arts (completed 2005)

Validity and factor structure of the Multidimensional Task Ability Profile

Department of Exercise and Nutritional Sciences, San Diego State University, CA

Research Mentor: John Varghese

Thesis - Master of Physical Therapy (completed 2006)

The use of the Multidimensional Task Ability Profile as a functional outcome measure in the management of spinal disorders

School of Physiotherapy, University of Otago, Dunedin, New Zealand

Research Co-Mentor: Jeannie Stephenson

K30 Directed Research - Master of Science (completed 2008)

Locomotor training on a treadmill with bodyweight support compared with proprioceptive neuromuscular facilitation training in adults with chronic stroke

College of Medicine, University of South Florida, FL

Committee Member: Jason Martuscello

Thesis - Master of Science (completed 2012)

Core muscle activation during trunk exercise: a systematic review

School of Physical Education & Exercise Science, University of South Florida, FL

Examiner: Gregory J. Thiel

Dissertation - Master of Technology (completed 2014)

The effectiveness of spinal manipulation at L3 on lumbar paraspinal muscle endurance in asymptomatic males

Faculty of Health Sciences, Durban University of Technology, South Africa

Committee Member: Brittany VB Johnson

Dissertation - Doctor of Philosophy (completed 2020)

An exploratory analysis of firefighters' nutrient intake related to obesity, musculoskeletal injury, sleep, and physical fitness

ProQuest number: 27741097

Concordia University, Chicago, IL

Committee Member: Charity L. Lane

Dissertation - Doctor of Philosophy (completed 2022)

An exploration of administrative and shift leaders' perceptions on barriers and facilitators to adoption and maintenance of firefighter physical fitness programs

ProQuest number: 29165496

Concordia University, Chicago, IL

### **Undergraduate Research Projects**

2008-2009      Thesis Director: Samantha Smith

Honors Thesis Project

Characteristics of elective orthopedic surgeries in older adults

Honors College, University of South Florida, FL

### **Other Student Research Mentorships**

2014-2017      Various Doctor of Physical Therapy (DPT) capstone projects - USF

2014-present   Various transitional DPT capstone projects - University of Montana

### **Other Research Mentorships**

2014-2016      Co-Mentor: Douglas Haladay, DPT, PhD, OCS, CSCS

Young Investigators Initiative, 2015 Workshop, U.S. Bone and Joint Initiative

## RESEARCH AND CREATIVE ACTIVITY

### **Research: Grants, Contracts, Donations, and other Extramural Support**

#### ***Funded:***

Role: Project Manager (PI: Graves JE)

Title: Effect of prophylactic ibuprofen on exercise-induced soreness of the lumbar musculature

Sponsor: Whitehall-Robins Inc. Type: Industry (non-refereed). Total Amount Funded: \$40,000.

Organization: Syracuse University. Project Period: 1997-1998

Purpose: To assess the efficacy of prophylactic ibuprofen compared with placebo on experimentally-induced delayed onset muscle soreness of the lumbar musculature.

Role: Project Manager (PI: Graves JE)

Title: Effect of heat therapy on exercise-induced soreness of the lumbar musculature

Sponsor: The Procter & Gamble Company. Type: Industry (non-refereed). Total Amount Funded: \$35,254. Organization: Syracuse University Project Period: 1999

Purpose: To assess the efficacy of three temperatures of topical heat wrap therapy compared with control on experimentally-induced delayed onset muscle soreness of the lumbar musculature.

Role: Investigator (PI: Verna JL)

Title: Development of a variable angle Roman chair

Sponsor: US Department of Health and Human Services, National Institutes of Health, National Institute of Arthritis and Musculoskeletal and Skin Diseases (1R43AR046342-01). Type: Federal (refereed). Total Amount Funded: \$99,891

Organization: BackStrong International LLC. Project Period: 1999-2000

Purpose: To develop and conduct pilot testing on a new exercise device for exercise training of the lumbar musculature.

Role: Principal Investigator (PIs: Mayer JM, Mooney V)

Title: Effect of postural training on musculoskeletal pain and disability

Sponsor: Life Mechanics Institute Inc. Type: Industry (non-refereed). Total Amount Funded: gift-in-kind equipment valued at \$15,000.

Organization: The Vert Mooney Research Foundation (TVMRF). Project Period: 2001

Purpose: To assess the reliability, validity, and effectiveness of a new postural testing and training device (Posture Point).

Role: Consultant (PI: Lane J)

Title: Post-operative infusion pump for shoulder pain

Sponsor: I-Flow Inc. Type: Industry (non-refereed). Total Amount Funded: unavailable.

Organization: TVMRF. Project Period: 2001

Purpose: To assess the efficacy of post-operative infusion pump intervention on post-operative shoulder pain.

Role: Project Manager (PIs: Eek B, Mooney V, O'Neill C)

Title: Injection of disc restorative solution combined with nucleoplasty: effect on discogenic low back pain and disability

Sponsor: ArthroCare Inc. Type: Industry (investigator-initiated trial protocol; non-refereed).

Total Amount Funded: \$10,000

Organization: TVMRF. Project Period: 2001-2003

Purpose: To conduct pilot testing on injection of a new disc restorative solution for discogenic low back pain and disability.

Role: Principal Investigator (PIs: Mayer JM, Mooney V)

Title: Reliability and validity of a non-radiographic method to evaluate sagittal alignment of the spine

Sponsor: Aditus Inc. Type: Industry (non-refereed). Total Amount Funded: gift-in-kind equipment valued at \$5,000.

Organization: TVMRF. Project Period: 2002

Purpose: To assess the reliability and validity of a new non-radiographic device (Spinal Mouse) to evaluate sagittal alignment of the spine.

Role: Principal Investigator (PIs: Mayer JM, Mooney V)

Title: Endurance training of the respiratory muscles

Sponsor: Aditus Inc. Type: Industry (non-refereed). Total Amount Funded: gift-in-kind equipment valued at \$1,500.

Organization: TVMRF. Project Period: 2002

Purpose: To support human subjects research on endurance training of the respiratory muscles at the US Spine & Sport Foundation (San Diego, CA).

Role: Consultant (PI: O'Neill C)

Title: Anti-tumor necrosis factor for discogenic low back pain

Sponsor: unavailable. Type: unavailable (non-refereed). Total Amount Funded: unavailable.

Organization: TVMRF. Project Period: 2002

Purpose: To conduct pilot testing on anti-tumor necrosis factor for discogenic low back pain.

Role: Consultant (PI: Udermann BE)

Title: The influence of cup stacking on hand-eye coordination and reaction time of second-grade students

Sponsor: Speed Stacks Inc. Type: Industry (non-refereed). Total Amount Funded: unavailable.

Organization: University of Wisconsin LaCrosse. Project Period: 2002-2003

Purpose: To examine the influence of cup stacking on hand-eye coordination and reaction time of second-grade students.

Role: Principal Investigator

Title: Continuous low level heat wrap therapy alone and combined with active exercise for acute low back pain: effect on functional ability

Sponsor: The Procter & Gamble Company. Type: Industry (investigator-initiated; non-refereed).

Total Amount Funded: \$106,145

Organization: TVMRF. Project Period: 2003-2004

Purpose: To evaluate the efficacy of combining continuous low-level heat wrap therapy with directional preference-based exercise on physical function and pain in patients with acute low back pain.

Role: Principal Investigator

Title: Continuous low level heat wrap therapy for the prevention and treatment of exercise-induced delayed onset muscle soreness of the low back muscles

Sponsor: The Procter & Gamble Company. Type: Industry (investigator-initiated; non-refereed).

Total Amount Funded: \$66,325.

Organization: TVMRF. Project Period: 2003-2004

Purpose: To evaluate the effects of continuous low-level heat wrap therapy for the prevention and early phase treatment of experimentally-induced delayed onset muscle soreness of the lumbar musculature.

Role: Supervisor - Data Collection and Research (PI: Parker R in cooperation with City of San Diego)

Title: San Diego Fire-Rescue Wellness-Fitness Program

Sponsor: U.S. Department of Homeland Security, Federal Emergency Management Agency, FY2003 Assistance to Firefighters Grants. Type: Federal (refereed); awarded to the City of San Diego with subsequent competitive request for proposal received by San Diego Sports Medicine.

Total Amount Funded: \$1,050,000 (federal award: \$750,000, city match: \$300,000).

Organization: TVMRF (sub-contract from San Diego Sports Medicine). Project Period: 2004-2005

Purpose: To develop, implement, and assess the San Diego Fire-Rescue Wellness-Fitness Program.

Role: Consultant (PI: not applicable)

Title: Chula Vista Firefighter Wellness-Fitness Program - Partnership with San Diego Firefighter Regional Wellness Center

Sponsor: U.S. Department of Homeland Security, Federal Emergency Management Agency, FY2005 Assistance to Firefighters Grants. Type: Federal (refereed); awarded to the City of Chula Vista. Total Amount Funded: \$147,716 (federal award \$118,173, city match: \$29,545).

Organization: TVMRF (sub-contract from San Diego Sports Medicine). Project Period: 2005

Purpose: To assist the Chula Vista Fire Rescue department with preparing a federal grant application for the department to join the San Diego Firefighter Regional Wellness Center.

Role: Research Director (Medical Director: Mooney V)

Title: Development, implementation, and assessment of SpineZone

Sponsor: Sharp Community Medical Group. Type: Industry. Total Amount Funded: \$100,000.

Organization: TVMRF. Project Period: 2005-2008

Purpose: To implement and assess the effectiveness of standardized exercise therapy at SpineZone on clinical outcomes and costs for the treatment of spinal pain disorders.

Role: Research Associate (President: Haldeman S)

Title: The Bone and Joint Decade 2000-2010 Task Force on Neck Pain and its Associated Disorders

Sponsor: World Health Organization. Type: Foundation (information regarding refereed vs. non-refereed: unavailable). Total Amount Funded: unavailable.

Organization: self. Project Period: 2005-2007

Purpose: To conduct a comprehensive systematic review of the literature and best evidence synthesis on neck pain and its associated disorders.

Role: Consultant (PI: Dagenais S)

Title: Interligamentous injection of Proliferol for chronic low back pain

Sponsor: CAM Research Institute. Type: Foundation (non-refereed). Total Amount Funded: unavailable.

Organization: CAM Research Institute. Project Period: 2005-2008

Purpose: To conduct animal research and human subjects research on interligamentous injection of Proliferol (prolotherapy technique) for chronic low back in a multi-phase research project.

Role: Consultant (PIs: Eek B, Mooney V)

Title: Physiological effects of disc restorative solution on rodent spinal discs

Sponsor: Eek B; Skoll Foundation. Type: Foundation (non-refereed). Total Amount Funded: unavailable.

Organization: TVMRF. Project Period: 2005-2008

Purpose: To assess the physiological effects of a new disc restorative solution on rodents spinal discs.

Role: Principal Investigator - recipient of award (Mentors: Mooney V, Matheson L)

Title: Medical rehabilitation research - Development of precise and efficient strategies to measure functional outcomes

Sponsor: US Department of Health and Human Services, National Institutes of Health, National Institute for Child Health and Human Development, Clinical Research Loan Repayment Program Grant (2L30HD051358-02). Type: Federal (refereed). Total Amount Funded: \$207,252 (\$140,000 direct loan repayment, \$67,252 federal / state income tax reimbursement).

Organization: TVMRF. Project Period: July 2005 - June 2009

Purpose: To continue the development of a multidimensional self-report instrument that assesses physical function and disability, and to test the instrument's clinical validity.

Role: Principal Investigator

Title: Double-blind, placebo controlled, randomized, cross-over study evaluating the efficacy of oral cat's claw supplementation on endurance performance of experienced cyclists

Sponsor: CAM Research Institute / Michael Markus. Type: Foundation (non-refereed). Total Amount Funded: \$66,200.

Organization: CAM Research Institute. Project Period: 2006

Purpose: To assess the relative efficacy of an oral cat's claw supplementation, caffeine, and placebo on cardiovascular endurance.

Role: Principal Investigator

Title: i) Complications of cervical injection procedures. ii) Doctors' and patients' perceptions of outcomes of treatment for spinal disorders

Sponsor: NCMIC Inc. Type: Foundation (non-refereed). Total Amount Funded: \$18,000.

Organization: CAM Research Institute. Project Period: 2006-2007

Purposes: 1) To conduct a literature review on complications of cervical injection procedures for spinal disorders. 2) To compare the perceptions of treatment outcome for spinal disorders among various healthcare providers and patients.

Role: Principal Investigator

Title: Surface electromyographic analysis of the trunk muscles during dynamic exercise on a new medical device for home low back exercise

Sponsor: MedX Corp. Type: Industry (investigator-initiated; non-refereed). Total Amount Funded: \$10,000.

Organization: TVMRF. Project Period: 2006-2007

Purpose: To assess the surface electromyographic activity of the lumbar paraspinal muscles during dynamic exercise on a new home exercise device.

Role: Recipient (PI: not applicable)

Title: lumbar and cervical exercise testing and training equipment

Sponsor: MedX Corp. Type: Industry (non-refereed). Total Amount Funded: gift-in-kind equipment valued at \$66,390.

Organization: University of South Florida (USF). Project Period: 2008

Purpose: To support human subjects research on lumbar spine exercise testing and training conducted at the USF Human Functional Performance Laboratory.

Role: Principal Investigator

Title: A pilot study to evaluate the efficacy and safety of a novel topical cream to relieve acute low back pain

Sponsor: Johnson & Johnson Inc (USF award #: 6140100900). Type: Industry (clinical trial protocol developed jointly by industry and investigator; non-refereed). Total Amount Funded: \$136,880 (\$107,780 direct, \$29,100 indirect) (\$54,752 contractually guaranteed distribution; participants enrolled: 0).

Organization: USF. Project Period: 2008-2009

Purpose: To evaluate the efficacy of a novel topical cream on physical function and pain in patients with acute low back pain.

Role: Principal Investigator

Title: Disc restorative solution for discogenic headache - a retrospective case series

Sponsor: TVMRF (USF award #: 6140100600). Type: Foundation (non-refereed). Total Amount Funded: \$8,004 (\$6,253 direct, \$1,751 indirect).

Organization: USF. Project Period: 2008-2009

Purpose: To describe the clinical procedures, safety, and outcomes related to intradiscal injection of a disc restorative solution for the treatment of cervicogenic headache.

Role: Principal Investigator; Lincoln Eminent Scholar Chair - Research operations support for endowed chair

Sponsor: USF Foundation (endowment established through donations from Florida Chiropractic Foundation for Education and Research and Lincoln College Education and Research Fund, along with State of Florida match) Type: Foundation and State (non-refereed - disbursed annual

earnings from endowment principal). Total Amount Funded: approximate disbursement FY2008-2009 - FY2017-2018: \$681,833.

Organization: USF. Project Period: October 2007 - June 2018

Purpose: To conduct human subjects research in order to advance the understanding of spinal biomechanics and chiropractic care.

Role: Principal Investigator

Sponsor: Florida Chiropractic Foundation for Education and Research

Title: Research operations support. Type: Foundation (non-refereed - unrestricted research gift).

Total Amount Funded: total donation FY2008-2009 - FY2015-2016: \$242,380.

Organization: USF. Project Period: October 2007- June 2016

Purpose: To conduct human subjects research in order to advance the understanding of spinal biomechanics and chiropractic care.

Role: Principal Investigator

Title: Low back injury prevention in firefighters

Type: US Department of Homeland Security, Federal Emergency Management Agency, Assistance to Firefighters Grant Program, FY 2009 Fire Prevention and Safety Grants, Research & Development (EMW-2009-FP-00418). Type: Federal (refereed). Total Amount Funded: \$701,173 (\$487,860 direct, \$213,313 indirect).

Organization: USF. Project Period: April 30, 2010 - February 8, 2013

Purpose: To assess the safety and effectiveness of supervised worksite exercise compared with control on back and core muscular endurance in firefighters.

Role: Project Leader and Co-Principal Investigator (PI: Quillen WS)

Title: Reduction of risk for low back injury in theater of operations

Sponsor: US Department of Defense, Congressionally-Directed Medical Research Program (10193004). Type: Federal (non-refereed). Total Amount Funded: \$715,256 (\$488,140 direct, \$227,152 indirect).

Organization: USF. Project Period: September 30, 2011 - March 29, 2015

Purpose: To compare the effectiveness of lumbar extensor high intensity progressive resistance exercise versus core stability exercise on lumbar extension muscular strength and core muscular endurance in US Army Soldiers.

Role: Director

Title: Interdisciplinary Center for Neuromusculoskeletal Research

Sponsor: State of Florida - legislative award - Education and General. Type: State - legislative (non-refereed). Total Amount Funded: \$2.4 M total awarded (FY2012-2013 through FY2017-2018).

Organization: USF. Project Period: July 2012 -June 2018

Purpose: To conduct research for the prevention and management of neuromusculoskeletal disorders in order to reduce their burden within society.

Role: Principal Investigator

Title: Development of a web-based system to enhance delivery of back exercise and education programs

Sponsor: Lincoln College Education and Research Fund. Type: Foundation (non-refereed - unrestricted research gift). Total Amount Funded: \$70,000  
Organization: USF. Project Period: May 2013 - June 2016  
Purpose: To develop and conduct initial pilot testing of a web-based system for delivery of back and core exercise programs.

Role: Co-Principal Investigator (PI: Dayicioglu D)  
Title: Quantitative analysis of core performance following autologous breast reconstruction  
Sponsor: USF Women's Health Collaborative. Type: Internal (refereed). Total Amount Funded: \$7,600.  
Organization: USF. Project Period: May 1, 2014 - April 30, 2016  
Purpose: To assess the effect of autologous breast reconstruction on back and core muscular performance.

Role: Principal Investigator  
Title: Worksite exercise interventions for low back injury prevention in firefighters  
Sponsor: US Department of Homeland Security, Federal Emergency Management Agency, Assistance to Firefighters Grant Program, FY 2013 Fire Prevention and Safety Grants, Research & Development (EMW-2013-FP-00723). Type: Federal (refereed). Total Amount Funded: total award including 5% match from Florida Chiropractic Foundation for Education and Research: \$1,332,106 (\$898,656 direct, \$433,450 indirect).  
Organization: USF. Project Period: August 1, 2014 - April 30, 2018  
Purpose: To compare the effectiveness of 2 worksite exercise interventions relative to control on lost work days, incidence of low back pain, physical function, quality of life, and costs related to low back injury and illness in firefighters.

Role: Co-Principal Investigator (PI: Hardwick D)  
Title: A new herbal-based topical ointment for treatment of exercise induced delayed onset muscle soreness of the elbow flexor muscles  
Sponsor: Aldali Inc, Tampa, FL and Florida High Tech Corridor (FHTC). Type: Industry (non-refereed). Total Amount Funded: \$99,631 (Aldali: \$50,277 - \$33,630 direct, \$16,647 indirect; FHTC: \$49,354 direct; participants enrolled as of 12/31/2016: 18).  
Organization: USF. Project Period: July 1, 2015 - June 30, 2017  
Purpose: To assess the efficacy of a new herbal-based topical ointment (Asteenza) on relieving pain associated with exercise-induced DOMS of the elbow flexor muscles.

Role: Principal Investigator  
Title: Critical assessment of management of low back pain in individuals with lower extremity amputation  
Sponsor: Lincoln College Education and Research Fund. Type: Foundation (non-refereed - unrestricted research gift). Total Amount Funded: \$50,000  
Organization: USF. Project Period: January 2016 - December 2017  
Purpose: To critically assess the management of low back pain in individuals with lower extremity amputation in order to develop resources for healthcare providers and patients.

Role: Co-Principal Investigator (PI: Patel T)

Title: Analysis of surgeon physical stress during open and robotic radical cystectomy with electromyography and motion sensor analysis

Sponsor: USF New Researcher Grant. Type: Internal (refereed). Total Amount Funded: \$4,000

Organization: USF. Project Period: May 1, 2016 - April 30, 2017

Purpose: The compare robotically-assisted laparoscopic radical cystectomy to open radical cystectomy on surgeon physical strain as assessment by kinematics and myoelectric activity.

Role: Principal Investigator

Sponsors: Lincoln College Education and Research Fund; Florida Chiropractic Foundation for Education and Research

Title: Head of Operations support - Lincoln Chair Research Program. Type: Foundation (non-refereed - unrestricted research gift). Total Amount Funded: \$100,000

Organization: USF. Project Period: April 2016 - June 2018

Purpose: To conduct human subjects research in order to advance the understanding of spinal biomechanics and chiropractic care.

Role: Project Leader (along with Lane CL)

Title: Implementation of a fitness and injury prevention program for firefighters

Sponsor: City of St. Petersburg, FL (via U.S. Department of Homeland Security, Federal Emergency Management Agency, FY 2016 Assistance to Firefighters Grants. Type: Federal

(referred). Competitive request for proposal received by TVMRF for sub-contract.. Total Amount Funded (for sub-contract): \$95,750

Organization: TVMRF. Project Period: January 2018 - November 2018

Role: Site Principal Investigator (PI: Farrokhi S - Naval Medical Center, San Diego)

Title: Resolving the burden of low back pain in military service members and veterans: a multi-site pragmatic clinical trial

Sponsor: US Department of Defense (W81XWH-18-2-0007) - NIH-DoD-VA Pain Management Collaboratory - Pragmatic Clinical Trials Demonstration Projects. Type: Federal (refereed). Total Amount Funded to Site: \$1,068,236 allocated to: TVMRF - \$164,212 (\$149,284 direct, \$14,928 indirect) and USF - \$904,024 (\$565,255 direct, \$338,769 indirect).

Organization: TVMRF (sub-contract with the Henry Jackson Foundation for the Advancement of Military Medicine). Project Period: May 2018 - April 2024

Purpose: To plan (UG3 phase) and execute (UH3 phase) a multi-site cluster randomized pragmatic trial to evaluate the comparative effectiveness of Psychologically Informed Physical Therapy versus usual physical therapy care for low back pain in military service members and veterans.

Role: Principal Investigator / Project Leader

Title: Implementation of a regional firefighter wellness initiative

Sponsor: US Department of Homeland Security, Federal Emergency Management Agency, Assistance to Firefighters Grant Program, FY 2017 Fire Prevention and Safety Grants (EMW-2017-FP-00711). Type: Federal (refereed). Total Amount Funded: total project cost \$1,227,681 (federal share \$1,169,220; match \$58,461).

Organization: TVMRF. Project Period: September 14, 2018 - September 13, 2021.

Purpose: To implement and assess an intervention-based regional wellness program for career firefighters targeting 3 critical issues that impact safety and health of firefighters: low back injury and related musculoskeletal disorders, obesity (cardiovascular disorders), and sleep disorders.  
Project Period: September 14, 2018 - September 13, 2021. Organization: TVMRF

Role: Project Leader - for outcomes management component of contracted services  
Title: Workers' Compensation Medical and Psychological Services for City Employees  
Sponsor: City of Sacramento. Type: City (competitive request for proposal received by Spine & Sport Physical Therapy)

Organization: TVMRF (sub-contract with Spine & Sport Physical Therapy). Project Period: September 29, 2023 - present).

Purpose (for outcomes management component): To assist the recipient organization with augmenting its primary physical therapy services by providing advanced, evidence-based clinical outcomes management and client-centered educational services for City of Sacramento employees with work-related musculoskeletal disorders.
